

Certification in Maternal Fetal Medicine (CMFM)

Subspecialty Selection and Commencement of Training Guide

College Vision

Excellence and equity in women's health

College Mission

To continue to lead in education and training in obstetrics and gynaecology, and advocacy in women's health

College Values

Advocacy

We are a leading voice for equity, social justice, fairness and evidence-based policy.

Education

We embrace the opportunity to learn, share knowledge and experience through innovation, discovery and research.

Excellence

We are committed to performance at the highest standard in our work, training, research and support.

Integrity

4. Candidates should be familiar with articles on obstetrics in the journal Ultrasound in Obstetrics and Gynaecology and articles on obstetric ultrasound in the Journal of Clinical Ultrasound
5. Candidates must be able to monitor and manage their own and their institution’s practices, carry out their own research studies, and analyse the work of others critically. The candidate should have a thorough practical understanding of the statistical and managerial methods used in the field.

Eligibility to Commence Training in the CMFM Subspecialty Training Program

After being deemed eligible for CMFM Subspecialty training, to become a CMFM Subspecialty trainee, doctors must:

- Have the FRANZCOG or have the following:
 - For those trainees who commenced the FRANZCOG Training Program during the period 1 December 2003 to 30 November 2013 they must have successfully completed all requirements of basic training in the FRANZCOG Training Program as well as the FRANZCOG written and oral examinations, and advanced surgical skills assessment.
 - For those who commenced the FRANZCOG Training Program on or after 1 December 2013

Applying for Part Time Training

For trainees in the CMFM Subspecialty Training Program, Years 1 - 3 may be undertaken as part time training.

All part time training must be at least half of the full-time training requirement (0.5FTE) for the relevant training period. The duration of the training program will be extended for that trainee. All part time training must include a range of experience appropriate to the trainee's year level and must include appropriate supervision.
